Background
Pakistan CSOs Coalition for Health and Immunization (PCCHI) came into being in 2011 through the efforts of 15 CSOs who at the time of its inception were working on health system strengthening in Sindh, Punjab, KPK, Balochistan and AJK/GB. These CSOs worked in partnership with Federal Ministry of Health, EPI and UNICEF, through Gavi type B funds in Pakistan. Later during 2012, Gavi through Catholic Relief Services (CRS) extended a dedicated financial support to strengthen PCCHI. Ever since 2012, PCCHI has been growing and expanding. During the last few years, the membership base has expanded from 15 to 80 plus and have gained active presence in Sindh, Punjab, KPK and Balochistan.

Donations & Funds to PCCHI
PCCHI Secretariat also works towards resources mobilization to support community based immunization programmes and for the running of PCCHI. If any organization or individual, who is interested to donate funds particularly for the cause of immunization to save our children from vaccine preventable deadly diseases, do contact us to discuss. This component may also be integrated with other related development interventions aimed for community development. Feel free to write us at the given address.

Close to 3 Million Children do not receive Their Immunization
for promoting equity & coverage in Immunization

PCCHI Profile
Pakistan CSOs Coalition for Health & Immunization
About PCCHI
Pakistan CSOs Coalition for Health and Immunization (PCCHI) is a platform of CSOs who are working on health and immunization. The aim of the platform is to organize and strengthen CSOs to offer wide range of services and outreach for providing access to better health and immunization services. PCCHI member CSOs programmes revolve around community mobilization, research, advocacy, awareness raising, monitoring and service delivery for reaching difficult, neglected and hard to reach areas. PCCHI Secretariat keeps harmony with Federal, Provincial and District health and EPI departments to work jointly for increasing EPI coverage.

PCCHI Governance Structure
The organizational structure mainly comprises three tiers. The National Executive Body being the highest level and Provincial Executive Bodies (one for each province) are the second tier and then the general body members. Secretariat serves as a coordination and facilitating body between and with each tier and stakeholders.

Our Philosophy

Our Vision
To collectively reach the unreached through health system strengthening by supporting the government for achieving Sustainable Development Goals.

Our Mission
Synergize efforts for improving health and immunization status of women and children through an equitable approach.

What We Offer
- PCCHI has technical expertise to do scientific researches, independent monitoring on immunization coverage, mobilization in security risk, culturally and religiously rigid areas.
- PCCHI maintains partners from as many as 75 districts and have developed a coordination mechanism and can quickly mobilize on a large scale project;
- PCCHI has expertise of delivering immunization services in coordination with district health authorities.
- PCCHI works in coordination with health authorities at district, provincial and federal level to address issues pertaining to service delivery of vaccination;
- PCCHI has member CSOs who have experience of working for advocacy, awareness raising and social mobilization in favour of vaccination;
- PCCHI member CSOs have reach to marginalized and poor of the poorest communities who are deprived of basic health services.
- PCCHI can reach out to rural communities of Sindh, Balochistan, KPK and FATA.
